

Roadmap to Spiritual Awakening. . .

Lecture: Smoky Quartz and Human Racial Groupings

Questions:

- Q1. What indicates that a Quartz crystal carries the key to opening the Akashic Records.
- Q2. Who has access to the specific record(s) that a crystal carries?
- Q3. The Smoky Quartz crystal from my own collection was radiated by divine Godhead light frequencies on four separate occasions early in the Earth's life. Who benefits?
- Q4. Can the frequencies intended for the Black race open the Base Chakra of the White race?
- Q5. Does Smoky Quartz work to open the Base Chakra of persons of mixed races.

Answers:

- A1. The presence of akashic records on a Clear Quartz point is denoted by the appearance of one or more triangular protuberances on the crystal's facets.
- A2. Only the individual for whom the record is intended.
- A3. The four variations in the energies of each of the waves of radiation correspond to the four primary human races—red, white, yellow, and black. Each race benefits from its own specific range of the divine Godhead's black light frequencies.
- A4. Yes. But because the frequencies of one race are at variance with the frequencies intended for the Base Chakras of the other 3 races, opening takes longer.
- A5. Yes. But again, when the frequencies inherent to Smoky Quartz do not resonate with the specific races that make up the mixed race person, the opening takes longer.
