The Story of Light, Through Heaven's Gate

by S. Roger Joyeux

Antara Publishing, 2010

Paperback, eBook

398 pages, perfect bound

The Story of Light, Through Heaven's Gate is a spiritual, not religious book relative to the new age. It is a divinely inspired (channelled), thorough, and comprehensive BODY OF KNOWLEDGE about how divine light works on Earth and in the heavens.

Topics include: the role of angelic cadres in the evolution of Earth; the nature of the void and negativity; the lost souls of Lucifer's legions; the structure of light frequencies emanating from the Godhead; how divine light is made useful on Earth; innovative manipulations of light; the nature, use, and advantage of Oneness; the influences of topography, atmosphere, shadows, moisture, and polarity on light; the conversion of light into energy, light and the nature of disease; light in our solar system; the Sun and stars and inter-planetary light exchange; the flow of light into and through our solar system from higher dimensions and from planet-to-planet with discussion about the inner and outer planets; the specific

contribution of each planet to the light of our solar system; the contribution of the Kuiper belt and plutoids to the flow of light into and beyond our solar system; the creation, empowerment, and value of light stations (geographical power places) to bring light and life to Earth; the in-depth explanation of the soul's evolutionary development and involvement with the enlightenment of Earth; how light works with the consciousness, conscious body, mind, and will; the construct, design, flaws, and operation of the emotional body; the techniques, objectives, and limitations of contemplation and meditation; the manipulation of light through metaphysical tools and techniques including group consciousness; the nature of the divine plan including access to the akashic records, the awakening of memory cells, the influence of will, and the schedule of planetary changes; the realization of the image of God and the pulses of energy from God; the requirements, preparation, and procedure for the ascension of the planet, the species on the planet, and humanity from the physical plane.

With an advanced understanding of how light works, your interpretation of the world around you is illuminated in every respect.
